Time Over District Average Speed Per Hour																									

Special Rules.

West bound trains are superior to east bound trains of the same class.

Scheduled trains will protect against superior trains, and extra trains will move under protection of flagman, between Barnesville and Barnesville Junction: Telephone in Booth at Barnesville Junction gives communication with Register office at Barnesville.

No. 8 will stop on flag at Beltrami, Borup and Felton to pick up passengers for Minneapolis, St. Paul or beyond when No. 6 is so late that No. 8 leaves Crookston ahead.

No. 548 will carry passengers with proper transportation.

Normal position of Junction Switches:
 Barnesville Junction for Dakota Division.
 Moorhead Northern Junction for First District.
 Redland Junction, "Dakota Track" for Redland Yard.
 "Northern Track" for Second District.

Derail switch is located on west end Team Track at Barnesville.
 West-bound trains will be governed by Electric Distant and Home Signals at Moorhead Northern Junction.
 Bulletin Boards are placed at Barnesville and Redland.
 Yard Limit Boards are placed each way from Barnesville and Redland.

INITIAL STATIONS.

Barnesville for trains 1, 5, 7, 11, 403, 405.
 Redland " " 548.
 Redland Junction " " 6, 8, 132.
 Barnesville Junction " " 2, 12.
 Moorhead Nor. Jct. " " 131.

TERMINAL STATIONS.

Barnesville for trains 2, 6, 8, 12, 548.
 Redland " " 405.
 Redland Junction " " 5, 7, 131.
 Barnesville Junction " " 1, 11, 403.
 Moorhead Nor. Jct. " " 132.

Time Over District Average Speed Per Hour																		

Special Rules.

West bound trains are superior to east bound trains of the same class.

No. 550 will carry passengers with proper transportation.
 Trains will approach Redland Junction under control and stop unless proceed signal is given by switch tender; will not exceed 12 miles an hour over cross-overs or 1st district turn out.
 West bound trains will approach St. Vincent Junction very carefully, account sharp turn-out.
 Normal position of Junction Switches:
 Redland Junction, "Dakota Track" for Redland Yard.
 "Northern Track" for Second District.
 St. Vincent Junction for Third District main track.
 First and Fourth District Trains will register by card at Redland Junction.
 West-bound freight trains will register by card at Crookston.
 Derail switches are located on west end Elevator Track at Redland Junction, and west end Standard Oil Spur at Crookston.

Between Redland Junction and "West Yard Limit," there are two main tracks, designated as "Northern" and "Dakota."
 Trains Nos. 7, 8, 131, 132, 133, 134, 405 and 550 have right on "Northern" track only; trains 5, 6, 33, 34, 35, 36 and 413 have right on "Dakota" track only; extra trains to and from Dakota Division will use "Dakota" track; Northern Division extras will use "Northern" track.
 No. 7 and No. 8 will stop on flag at Argyle to pick up passengers for Duluth, St. Paul, Minneapolis or Winnipeg, and stop to let off passengers at Argyle who originated at St. Paul, Minneapolis, Duluth or Winnipeg.
 Class L and O engines and double headers must not be run over the Red Lake River bridge on the "Northern" track at Crookston.
 Bulletin Boards are placed at Redland and Crookston.
 Yard Limit Boards are placed each way from Redland and Crookston.

" Steiner and Greenbush.....	30 miles per hour.	25 miles per hour.
" Greenbush and Warroad.....	25 miles per hour.	20 miles per hour.

All engines backing up with or without cars, 20 miles per hour.

Speed Table.

50 miles per hour is equivalent to one mile in 1 minute and 12 seconds
 45 miles per hour is equivalent to one mile in 1 minute and 20 seconds.
 40 miles per hour is equivalent to one mile in 1 minute and 30 seconds.
 35 miles per hour is equivalent to one mile in 1 minute and 43 seconds.
 30 miles per hour is equivalent to one mile in 2 minutes and 0 seconds.
 25 miles per hour is equivalent to one mile in 2 minutes and 24 seconds.
 20 miles per hour is equivalent to one mile in 3 minutes and 0 seconds.
 15 miles per hour is equivalent to one mile in 4 minutes and 0 seconds.

SPECIAL RULES.

West bound trains are superior to east bound trains of the same class.

All trains displaying signals for following sections will stop at ALL registering stations, and the Conductor will register in person.

In addition to signs provided for in rule 7, Book of Rules, the following signs in column headed "Signs" indicate:

- D Day telegraph or telephone station.
- N Night telegraph or telephone station.
- DN Day and night telegraph or telephone station.
- P Dispatcher's telephone in wareroom or booth accessible at all times.
- I Interlocked.
- K Connection with foreign road.
- ⊙ Standard clock.

PERSONAL INJURIES.

1. Whenever passengers or employes are injured, everything must be done to care for them properly. If they are able to be moved, take them for treatment to the nearest place at which the Company has a surgeon. If they cannot be moved, call the nearest Company surgeon. If the case is urgent and the Company surgeon cannot be immediately procured, the conductor, agent or officer in charge is authorized to call the nearest surgeon available to administer first aid and care for the patient until the Company surgeon can take charge of the case.

No surgical operation must be performed until the arrival of the Company surgeon, unless it may be required for the immediate safety of the patient.

2. In cases of serious accidents to trains, conductors, after making everything safe, must give their undivided attention to the care and comfort of their passengers, especially to those who are injured. Bedding and linen may be taken from sleepers for this purpose, the conductor keeping careful account of all material so taken, and its return or safe keeping attended to; and, when necessary, injured persons may be put in the sleepers.

When a number of persons are injured, the service of competent surgeons in the vicinity should at once be secured, and every possible effort made to care for the injured, the Division Surgeon being notified by wire to come immediately to the place of the accident.

3. When tramps, boys and other persons, climbing on or jumping from moving trains, or persons walking or lying on the track, are injured or killed, they should be sent to their homes or placed in charge of the local county, city or village authorities, and no expense incurred on the part of the Company in the matter.

4. When people are killed away from a station the body should be picked up and taken to the nearest station and the authorities notified. Never take a body out of the county where the accident happened if it can be avoided, but if there is no station in that county take it to the nearest station in the next county, notifying the county authorities in all cases.

5. A report of all accidents must be made, and immediately sent by wire to Superintendent, giving all information.

In reporting accidents to trains carrying passengers, conductors should give the correct names of the injured and uninjured, the addresses and destinations of all persons on the train, and of the injured, and the

extent of their injuries. This report must be sent from first telegraph office to the General Claim Agent and to the Assistant Claim Agent in whose jurisdiction the accident occurs.

As soon as possible thereafter Form 245 should be made out by each employe and forwarded to the Superintendent of the Division; a separate report being made for each person injured.

6. Every effort must be made to procure the names and addresses of all persons, outsiders as well as employes, who witnessed the accident, especially when persons are injured within the corporate limits of any city, town or village, or when crossing the tracks at a public highway.

7. In every case of personal injury in any Department, a full and complete report must be made at once by every employe immediately present, no matter whether he considers his statement of importance or not, answering every question as fully as possible.

8. When persons are injured by an accident which may have been caused by defective appliances, tools or machinery, the car or appliance, tool or machinery must be immediately examined by the person in charge to ascertain its condition, and report made of the inspection, giving the numbers and initials of cars examined, with names, occupation and address of the persons making the inspection. This inspection must be made before the car or engine leaves the place where the accident occurred, and afterwards at the first district terminal by the inspector, foreman, or Master Mechanic at such point, the Superintendent to notify such person of the necessity of making such examination. When an accident is caused by the breaking of machinery, tools, appliances or rails, the broken parts must be so marked as to be readily identified, and immediately turned over to the Superintendent.

9. This Company will not recognize any responsibility for board, medicine, nursing or surgical attention furnished by other than Company Surgeons, except for the emergency service required under Rules 1 and 2, unless authorized by the Superintendent, General Claim Agent, or a general officer of the Company, and when so authorized the General Claim Agent should at once be notified.
